QUALITY POLICY

Starline S.p.A. wants to provide, through its organization, ball valves of superior quality standards thanks to the use of Forged Materials. In doing so, Starline S.p.A. declares its willingness to operate according to a quality system with the aim of achieving the established objectives of continuous improvement. Starline S.p.A. undertakes to fulfil all legal and regulatory requirements applicable or any other requirements that Starline S.p.A. may subscribe in relation to quality requirements, whether this may be with Clients or with other interested parties.

The principles established in the Quality Manual and the application methods contained in the System Procedures as well as in the Operating Instructions must be observed by all Starline S.p.A. employees and by those operating under its control. In doing so, the Starline S.p.A. Managements promotes awareness meetings and training, as well as instruction courses with the specific aim of improving the professionalism of the personnel and their involvement in achieving the corporate objectives and, at the same time, the level of awareness of personal responsibilities regarding the Quality.

The Management will ensure this Policy effectiveness through constant and periodical verification of the correct application of what provided for by the System Procedures and the Operating Instructions

In order to achieve this Starline S.p.A. will:

- Identify, document, monitor, measure and continuously improve our business processes, using this Quality Policy, quality objectives, performance evaluation including audit results, corrective and preventive actions and Management Review.
- Apply a risk management philosophy and practice that address any risks and opportunities associated with internal / external issues, and to meet the needs and expectations of interested parties.
- Set achievable objectives and targets for the quality and to the greatest extent possible influencing others to do the same;
- Measure and monitor our performance against these targets;
- Ensure ongoing compliance with all applicable legislation, mandatory guidelines, codes, standards and other relevant requirements
- Clearly define the roles, responsibilities and accountabilities and provide adequate and effective training
- Consult with, involve and encourage feedback from stakeholders to assist us in continually improving our processes
- Provide sufficient and suitable resources to implement, maintain and continuously improve all aspects and impacts of our quality performance;
- Effectively communicate and review this policy to all relevant stakeholders
